What is this product?

This document provides you with key investor information about this sub-fund. With reference to Article 181(5) of the Law of 17 December 2010, each sub-fund is only liable for the debts, liabilities and obligations within the Fund applicable to that sub-fund. This means each individual sub-fund constitutes its own entity with regard to the unitholders. The unitholder of a sub-fund may convert some or all of its units into units of another sub-fund subject to the imposition of any applicable issue taxes. Conversions from one sub-fund to another shall be made on the basis of conversion applications submitted to the Management Company in accordance with the provisions of sections 7 and 8 of the Sales Prospectus.

Type: The Fund is an OGAW- investment fund established in Luxembourg.

Term: The Fund has an unlimited term. The Fund may be wound up at any time by the Management Company in accordance with the provisions laid down in the Sales Prospectus. They may request the redemption of their shares from the Company. For details on return options, please refer to the section "How long should I hold the investment and can I withdraw money early?".

Objectives: The objective of Quoniam Funds Selection SICAV – European Small Cap's investment policy is to achieve a performance that produces a higher yield than that of the European equity market for small enterprises, following the principle of risk diversification.

As a result, sustainability criteria are used as a basis for the sub-fund when investing its assets.

The sub-fund's assets are mainly invested in equities and equity-like securities as well as in certificates (equity index/share certificates), warrants on equities and exchange-traded index funds (incl. closed-end REITS).

The Fund's assets may also be invested in other fixed and variable-interest securities, exchange and convertible bonds, participation certificates, linked bonds, zero bonds, bank deposits and/or money market instruments.

At least 51% of the net sub-fund assets are invested in assets issued by companies with a comparatively low market capitalisation and with a legal domicile or economic focus in Europe or by issuers whose parent companies have their legal domicile or economic focus in Europe.

The investment strategy uses a benchmark (MSCI EUROPE Small Cap) as a guide, which is to be outperformed. No attempt is made to replicate the assets in the benchmark. The fund management may deviate significantly from this benchmark and invest in stocks that are not part of the benchmark.

Income arising from Quoniam Funds Selection SICAV - European Small Cap EUR A dis is generally distributed.

The Depositary of the Fund is the DZ PRIVATBANK AG Luxembourg branch, Luxembourg.

The prospectus and the current annual and semi-annual reports, the current share prices and further information on the Fund are available free of charge in English at <https://www.union-investment.com>.

Intended retail investor: The Fund is aimed at retail investors. These clients pursue the goal of wealth creation / optimisation and have a long-term investment horizon. This fund is a product for clients with basic knowledge and/or experience of financial products. The client can bear a financial loss and does not value capital protection.

What are the risks and what could I get in return?

Risk indicator

The Overall Risk Indicator helps you to assess the risk associated with this product compared to other products. It shows how high the probability is that you will lose money on this product because the markets develop in a certain way or because we are unable to pay you out.

We have classified this product as risk class 4 on a scale of 1 to 7, where 4 is a medium risk class.

The risk of potential losses from future performance is classified as medium.

In the event of very adverse market conditions, it is possible that our ability to execute your return request may be affected.

Please note the currency risk. You will receive payments in another currency, so your final return will depend on the exchange rate between the two currencies. This risk is not reflected in the above indicator.

Risks not adequately captured by the Overall Risk Indicator: Operational risks, tax risks.

This product does not contain any protection against future market developments. As a result, you could lose all or part of the invested capital.

Performance scenarios

What you get out of this product in the end depends on future market developments. Future market development is uncertain and cannot be predicted with certainty.

The unfavourable, moderate and favorable scenarios shown illustrate the worst, average and best performance of the product/a suitable benchmark over the last 12 years. The markets could develop completely differently in the future.

What happens if Union Investment Luxembourg S.A. is unable to pay out?

The failure of the Company has no direct effect on your payment, as the statutory regulation stipulates that in the event of the insolvency of the Management Company, the investment fund does not become part of the insolvency estate, but is maintained independently.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs, and how they affect your investment.

Costs over time

The tables show amounts that are taken from your investment to cover various types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.

- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 7 years
Total costs	656 EUR	1,990 EUR
Annual cost impact (*)	6.6 %	2.6 % per year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period, your average return per year is projected to be 8.0 % before costs and 5.3 % after costs.

We may share part of the costs with the person selling you the product to cover the services provided to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4.8 % of the amount you pay when entering this investment. This includes distribution costs of 4.8 % of amount invested / 476 EUR. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	up to 476 EUR
Exit costs	We do not charge an exit fee for this product. But the person selling you the product may do so.	
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.6 % of the value of your investment per year. This is an estimate:	161 EUR
Transaction costs	0.2 % of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	19 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	

How long should I hold it and can I take money out early?

Recommended holding period: 7 years

This product is suitable for long-term investments. No costs or fees will be incurred in the case of redemption before the recommended holding period.

Shares in the Fund may in principle be redeemed on each valuation day. We may suspend the issue and redemption of shares under exceptional circumstances if such action is deemed necessary when taking the interests of investors into account. In order to manage liquidity risks we may limit the redemption of shares if investors' redemption requests reach a predefined threshold above which the redemption requests can no longer be executed in the interests of all investors and/or extend the time limit for redemption of shares. A description of the possibility and conditions of using these control elements is provided in the Sales Prospectus in the sections entitled "Redemption restriction" and "Extension of the redemption period". We may spin off illiquid assets in the interest of investors.
