

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Quoniam Funds Selection SICAV - Global High Yield MinRisk EUR hedged I dis

Quoniam Funds Selection SICAV - Global High Yield MinRisk EUR hedged I dis is a share class of the Quoniam Funds Selection SICAV - Global High Yield MinRisk sub-fund of the Quoniam Funds Selection SICAV investment fund (hereinafter referred to as "Fund").

Securities ID no.(WKN)/ISIN: A12C7Q / LU1120175770

The Fund is managed by Union Investment Luxembourg S.A., Luxembourg. As part of the Union Investment Group, Union Investment Luxembourg S.A. is affiliated to the Volksbanken Raiffeisenbanken cooperative financial network.

Objectives and investment policy

The aim of the investment policy of Quoniam Funds Selection SICAV - Global High Yield MinRisk is to generate reasonable returns on the invested capital. The assets to be acquired for this Fund are identified on a discretionary basis using a consistent investment process ("active management").

The investment strategy is aligned with the ICE BofA Global High Yield BB-B Index (hedged in EUR). The Fund management may deviate considerably from this benchmark – both positively and negatively – through active overweighting and underweighting of individual stocks based on current capital market assessments or invest in stocks that are not part of the benchmark.

Using the MinRisk strategy, the Fund's objective is to achieve with the lowest possible overall risk an investment in global corporate bonds with a high level of diversification, while focusing on attractive segments of the high-yield credit market. As a result, sustainability criteria are used as a basis for the sub-fund when investing its assets.

To this end, a bond investment which is defensively oriented in comparison with a benchmark-driven approach is sought. The investment decisions are made according to a structured investment process. For individual investment instruments, fundamental information about companies and markets is processed using quantitative methods for yield forecasts. Sustainability criteria are also taken into account. The portfolio is compiled in an optimisation step in which yield forecasts and risk parameters are coordinated with each other. This creates actively managed, risk-controlled portfolios. The investment approach differs from other investment approaches in processing the collected information.

To achieve the investment objective, the sub-fund's assets will be invested in fixed and variable-rate interest-bearing government bonds, bonds from supranational organisations, mortgage bonds and corporate bonds of global issuers. Investments are primarily in bonds rated between BB+ and B-.

Income arising from Quoniam Funds Selection SICAV - Global High Yield MinRisk EUR hedged I dis is generally distributed.

In principle, investors may request the redemption of their units on any valuation day. The company can, however, suspend redemptions under exceptional circumstances if it deems this to be in the interests of investors.

This risk indicator is based on historical data and may not be a reliable indication of future performance. The share class risk category may shift over time and does not constitute a guarantee. The lowest category (1) does not mean that investments are entirely risk-free.

Quoniam Funds Selection SICAV - Global High Yield MinRisk EUR hedged I dis is in category 4 because its value is subject to heightened variations. This means that opportunities for profits and losses may be heightened.

The following risks have no direct influence on this classification, but may be significant for the Fund:

Credit risks: The Fund invests a significant portion of its assets in debt securities. Bond issuers may become insolvent, causing the debt securities to lose all or some of their value.

Liquidity risks: The Fund invests a significant portion of its assets in financial instruments which are sufficiently liquid by nature, but may reach a relatively low level of liquidity in some circumstances.

Counterparty risks: The Fund enters into a significant number of derivative transactions with various counterparties. If a counterparty becomes insolvent, that party may not be able to meet some or all of its open obligations to the Fund.

Operational risks: There is the risk of losses resulting from the inadequacy or failure of internal procedures and systems, from human error or as a result of external events. New or amended legislation may also affect the Fund.

A detailed presentation of the risks can be found in the sections of the sales prospectus entitled "General risk information", "Risk profile of the Sub-Fund" and, where applicable, "Special information".

Charges

One-off charges taken before or after you invest:

Entry charge:	No entry charge is levied.
Exit charge:	No exit charge is levied.

Charges taken from Quoniam Funds Selection SICAV - Global High Yield MinRisk EUR hedged I dis over a year:

Ongoing charges:	0.70 %
-------------------------	--------

Charges taken from Quoniam Funds Selection SICAV - Global High Yield MinRisk EUR hedged I dis under certain specific conditions:

Performance fee:	None
-------------------------	------

The management and custody of the Fund's assets and the distribution and marketing of the Fund's units are financed from the fees and other charges. The charges incurred reduce the investor's opportunities for returns.

The ongoing charges for Quoniam Funds Selection SICAV - Global High Yield MinRisk EUR hedged I dis shown here were incurred during the past financial year which ended on 30 September 2023. Ongoing charges do not include transaction costs, and may vary from year to year. They deviate from the ongoing charges which are indicated as part of cost information in line with EU Directive 2014/65/EU. Additional information regarding costs can be found in the section entitled "Costs of the Company and its sub-funds" of the Sales Prospectus (which can be accessed via the website union-investment.com).
