

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc

Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc is a share class of the Quoniam Funds Selection SICAV - Global Risk Premia sub-fund of the Quoniam Funds Selection SICAV investment fund (hereinafter referred to as "Fund").

Securities ID no.(WKN)/ISIN: A2AN18 / LU1525535792

The Fund is managed by Union Investment Luxembourg S.A., Luxembourg. As part of the Union Investment Group, Union Investment Luxembourg S.A. is affiliated to the Volksbanken Raiffeisenbanken cooperative financial network.

Objectives and investment policy

The aim of Quoniam Funds Selection SICAV – Global Risk Premia is to achieve reasonable returns. The assets to be acquired for this Fund are identified on a discretionary basis using a consistent investment process ("active management").

The aim is to participate in as many different risk premiums as possible in various asset classes. 'Risk premium' is understood to be the surplus income which investors receive for investing in risky assets compared to investing in those with little or no risk. The risk premium is therefore the expected return on the risky asset compared to the return on an investment with the highest credit rating. The risk premiums shall be broadly diversified and allocated in accordance with their respective risk. Surplus income shall be generated via controlled risk-taking. Positions may be held, for example, in global equities, global bonds and currencies. In addition to options, futures and forward exchange transactions shall be used.

The sub-fund's assets may be invested in global bonds, equities, exchange traded funds (including REITs) and derivatives of global issuers. The sub-fund's assets may also be invested in bank deposits and/or money market instruments, also taking account of sustainability criteria.

The investment strategy does not follow a benchmark or index-linked objective; instead, it pursues a total return strategy with the highest possible performance, whereby the invested risk premiums are to be correlated with each other as little as possible (multi beta approach). To this end, the sub-fund may enter into both long and short positions in various asset classes. Long positions may be built up synthetically by using derivatives, e.g. futures, options and/or swaps; short positions may be built up synthetically by using derivatives, e.g. futures, options and/or swaps only.

Income arising from Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc is reinvested.

In principle, investors may request the redemption of their units on any valuation day. The company can, however, suspend redemptions under exceptional circumstances if it deems this to be in the interests of investors.

---	---	---	---	---	---	---

This risk indicator is based on historical data and may not be a reliable indication of future performance. The share class risk category may shift over time and does not constitute a guarantee. The lowest category (1) does not mean that investments are entirely risk-free.

Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc is in category 4 because its value is subject to heightened variations. This means that opportunities for profits and losses may be heightened.

The following risks have no direct influence on this classification, but may be significant for the Fund:

Credit risks: The Fund invests a significant portion of its assets in debt securities. Bond issuers may become insolvent, causing the debt securities to lose all or some of their value.

Liquidity risks: The Fund invests a significant portion of its assets in financial instruments which are sufficiently liquid by nature, but may reach a relatively low level of liquidity in some circumstances.

Risks relating to the use of derivatives: The Fund may enter into derivative transactions for the purposes listed above in "Objectives and investment policy". These transactions go hand in hand with opportunities and risks.

Political/legal risks: The Fund invests a significant portion of its assets in emerging and/or developing countries. This may give rise to particular political and legal risks, such as unclear ownership rights for individual securities, which can be accompanied by an increased risk of loss.

Operational risks: There is the risk of losses resulting from the inadequacy or failure of internal procedures and systems, from human error or as a result of external events. New or amended legislation may also affect the Fund.

A detailed presentation of the risks can be found in the sections of the sales prospectus entitled "General risk information", "Risk profile of the Sub-Fund" and, where applicable, "Special information".

Charges

One-off charges taken before or after you invest:

Entry charge:	No entry charge is levied.
Exit charge:	No exit charge is levied.

Charges taken from Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc over a year:

Ongoing charges:	0.50 %
-------------------------	--------

Charges taken from Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc under certain specific conditions:

Performance fee:	None
-------------------------	------

The management and custody of the Fund's assets and the distribution and marketing of the Fund's units are financed from the fees and other charges. The charges incurred reduce the investor's opportunities for returns.

The ongoing charges for Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc shown here were incurred during the past financial year which ended on 30 September 2021. Ongoing charges do not include transaction costs, and may vary from year to year. They deviate from the ongoing charges which are indicated as part of cost information in line with EU Directive 2014/65/EU. Additional information regarding costs can be found in the section entitled "Costs of the Company and its sub-funds" of the Sales Prospectus (which can be accessed via the website union-investment.com).

Past performance

Past performance is no guarantee of future performance.
All costs were taken into account in the calculation.
Quoniam Funds Selection SICAV - Global Risk Premia EUR I acc was launched on 23 December 2016.
Past performance was calculated in EUR.
